2. Concerning A-1's request that we choose frequencies for the Sill radios it was our opinion this task could be done by Felix Rodriguez. In the special commo training given to Felix, a course was specially geared to choosing the correct frequencies and the proper crystals. A-1 mentioned the original request had stemmed from Felix. A-1 was informed that the reports we have gotten about Felix reflect that he likes to give the tedious jobs to someone else and this is the case here.
