CURRENT DEVELOPMENT IN MEDICINE

142 CONCLUSIONS

The following is a translation of the titles, authors and summaries of several articles which appeared in the Revista Cubana de Medicina, Vol. IV, No. 2, Havana, 29 April 1965. The pages are indicated before each title.

1. The electrocardiograms corresponding to 33 cases of mitral stenosis operated transmurally were studied.

2. The wave variations, as well as the favorable changes in the muscular and ventricular complex are those which, according to other authors, are present in patients operated transmurally.
